

Reconciliation of GAAP and Non-GAAP Information (unaudited)

In discussing financial results and guidance, the company may refer to certain measures not in accordance with Generally Accepted Accounting Principles (GAAP). Our non-GAAP measures exclude from reported results those items that management believes are not indicative of our ongoing performance and reflect how management evaluates our operating results and trends. Core results, core constant currency results and organic results are non-GAAP financial measures as they exclude certain items noted below. These measures are not, and should not be viewed as, substitutes for GAAP reporting measures.

Commodity mark-to-market net impact

In the 12 and 24 weeks ended June 13, 2015, we recognized \$39 million and \$38 million of mark-to-market net gains, respectively, on commodity hedges in corporate unallocated expenses. In the 12 weeks ended June 14, 2014, we recognized \$31 million of mark-to-market net gains on commodity hedges in corporate unallocated expenses. In the years ended December 27, 2014, December 28, 2013, December 29, 2012 and December 31, 2011, we recognized \$68 million and \$72 million of mark-to-market net losses, \$65 million of mark-to-market net gains and \$102 million of mark-to-market net losses, respectively, on commodity hedges in corporate unallocated expenses. We centrally manage commodity derivatives on behalf of our divisions. These commodity derivatives include agricultural products, energy and metals. Commodity derivatives that do not qualify for hedge accounting treatment are marked to market each period with the resulting gains and losses recorded in corporate unallocated expenses as either cost of sales or selling, general and administrative expenses, depending on the underlying commodity. These gains and losses are subsequently reflected in division results when the divisions recognize the cost of the underlying commodity in operating profit.

Restructuring and impairment charges

2014 Multi-Year Productivity Plan

In the 12 and 24 weeks ended June 13, 2015, we incurred restructuring charges of \$21 million and \$51 million, respectively, in conjunction with the multi-year productivity plan we publicly announced on February 13, 2014 (2014 Productivity Plan). In the 12 weeks ended June 14, 2014, we incurred restructuring charges of \$77 million in conjunction with our 2014 Productivity Plan. In the years ended December 27, 2014 and December 28, 2013, we incurred restructuring charges of \$357 million and \$53 million, respectively, in conjunction with our 2014 Productivity Plan. The 2014 Productivity Plan includes the next generation of productivity initiatives that we believe will strengthen our food, snack and beverage businesses by: accelerating our investment in manufacturing automation; further optimizing our global manufacturing footprint, including closing certain manufacturing facilities; re-engineering our go-to-market systems in developed markets; expanding shared services; and implementing simplified organization structures to drive efficiency.

2012 Multi-Year Productivity Plan

In the 12 and 24 weeks ended June 13, 2015, we incurred restructuring charges of \$4 million and \$10 million, respectively, in conjunction with the multi-year productivity plan we publicly announced on February 9, 2012 (2012 Productivity Plan). In the 12 weeks ended June 14, 2014, we incurred restructuring charges of \$15 million in conjunction with our 2012 Productivity Plan. In the years ended December 27, 2014, December 28, 2013, December 29, 2012 and December 31, 2011, we incurred restructuring charges of \$61 million, \$110 million, \$279 million and \$383 million, respectively, in conjunction with our 2012 Productivity Plan. The 2012 Productivity Plan includes actions in every aspect of our business that we believe will strengthen our complementary food, snack and beverage businesses by: leveraging new technologies and processes across PepsiCo's operations, go-to-market and information systems; heightening the focus on best practice sharing across the globe; consolidating manufacturing, warehouse and sales facilities; and implementing simplified organization structures, with wider spans of control and fewer layers of management.

Pension lump sum settlement charges

In the years ended December 27, 2014 and December 29, 2012, we recorded pension lump sum settlement charges of \$141 million and \$195 million, respectively, related to payments for pension liabilities to certain former employees who had vested benefits.

Venezuela remeasurement charges

In the year ended December 27, 2014, we recorded a \$105 million net charge related to our remeasurement of the bolivar for certain net monetary assets of our Venezuela businesses. \$126 million of this charge was recorded in corporate unallocated expenses, with the balance (equity income of \$21 million) recorded in our PepsiCo Americas Beverages (PAB) segment.

In the year ended December 28, 2013, we recorded a \$111 million net charge related to the devaluation of the bolivar for our Venezuela businesses. \$124 million of this charge was recorded in corporate unallocated expenses, with the balance (equity income of \$13 million) recorded in our PAB segment.

Merger and integration charges

In the years ended December 28, 2013 and December 29, 2012, we incurred merger and integration charges of \$10 million and \$16 million, respectively, related to our acquisition of Wimm-Bill-Dann Foods OJSC (WBD). In the year ended December 31, 2011, we incurred merger and integration charges of \$329 million related to our acquisitions of The Pepsi Bottling Group, Inc., PepsiAmericas, Inc. and WBD.

Tax benefits

In the year ended December 28, 2013, we recognized a non-cash tax benefit of \$209 million associated with our agreement with the IRS resolving all open matters related to the audits for the taxable years 2003 through 2009, which reduced our reserve for uncertain tax positions for the tax years 2003 through 2012. In the year ended December 29, 2012, we recognized a non-cash tax benefit of \$217 million associated with a favorable tax court decision related to the classification of financial instruments.

Restructuring and other charges related to the transaction with Tingyi (Cayman Islands) Holding Corp. (Tingyi)

In the year ended December 29, 2012, we recorded restructuring and other charges of \$150 million in the PepsiCo Asia, Middle East and Africa segment related to the transaction with Tingyi.

Free cash flow, excluding certain items

Free cash flow (excluding the items noted in the Net Cash Provided by Operating Activities Reconciliation table) is the primary measure management uses to monitor cash flow performance. This is not a measure defined by GAAP. Since net capital spending is essential to our product innovation initiatives and maintaining our operational capabilities, we believe that it is a recurring and necessary use of cash. As such, we believe investors should also consider net capital spending when evaluating our cash from operating activities. Additionally, we consider certain other items (included in the Net Cash Provided by Operating Activities Reconciliation table) in evaluating free cash flow that we believe investors should consider in evaluating our free cash flow results.

Earnings before interest and taxes

Earnings before interest and taxes (EBIT) refers to operating profit as presented in our consolidated statement of income.

2015 guidance

Our 2015 core tax rate guidance and our 2015 core and core constant currency EPS growth guidance exclude the commodity mark-to-market net impact included in corporate unallocated expenses and restructuring and impairment charges. Our 2015 organic revenue growth guidance excludes the impact of acquisitions, divestitures and other structural changes. In addition, our 2015 organic revenue growth guidance and our 2015 core constant currency EPS growth guidance exclude the impact of foreign exchange. We are not able to reconcile our full year projected 2015 core tax rate to our full year projected 2015 reported tax rate or our full year projected 2015 core and core constant currency EPS growth to our full year projected 2015 reported EPS growth because we are unable to predict the 2015 impact of foreign exchange or the mark-to-market net impact on commodity hedges due to the unpredictability of future changes in foreign exchange rates and commodity prices. We are also unable to reconcile our full year projected 2015 organic revenue growth to our full year projected 2015 reported net revenue growth because we are unable to predict the 2015 impact of foreign exchange due to the unpredictability of future changes in foreign exchange rates. Therefore, we are unable to provide a reconciliation of these measures.
